### OUR MISSION

The purpose of the **Clinton Greenway Conservation Trust** is to preserve the natural landscape, ecological diversity, and scenic beauty of the Town of Clinton by protecting open space and by conserving it for public enjoyment and appreciation of nature.

### OUR GOALS

1. Practice conservation by using such means as stewardship, acquisition of title, conservation easements, and encouragement of other conservation restrictions.
2. Facilitate public access to conserved spaces.
3. Practice land stewardship for conserved spaces.
4. Advocate for conservation land-use planning.
5. Work with other land trusts, government agencies, watershed associations, educational institutions, and other organizations with similar interests.

**“...THE CONCEPT OF  
STEWARDSHIP, OF LAND AS  
A PUBLIC TRUST:  
we who are alive now are  
responsible for taking proper  
care of the landscape so  
that future generations can dwell  
in it in safety and happiness.”**

J.H. KUNSTLER
